Patent No. 7,823,416 :
Issued November 2, 2010 : **Confirmation No. 4492**
GLASS COMPOSITION AND METHOD : **Mail Stop: Office of Petitions**
FOR PRODUCING GLASS ARTICLE

REQUEST UNDER 37 CFR 3.81(b)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The above-identified patent names Nippon Electric Gas Co., Ltd. as the Assignee. This is a mistake that arose as a result of a clerical error in the name of this Assignee on the Issue Fee Transmittal Form (PTOL-85) submitted with the Issue and Publication fees on September 22, 2010. The correct name of the Assignee is Nippon Electric Glass Co., Ltd., as apparent from the Assignment recorded in the PTO on December 20, 2006 at Reel 018739, Frame 0835.

Accordingly, Patentees request that the patent be corrected to state the correct name of the Assignee, i.e. Nippon Electric Glass Co., Ltd.

As required by MPEP 307, this request includes:

- (A) The processing fee (\$130.00) required by 37 CFR 1.17(i);
- (B) A request that the patent be corrected to state the correct name of the Assignee as indicated above, i.e. Nippon Electric Glass Co., Ltd.;
- (C) A statement that the Assignment was submitted for recordation as set forth in 37 CFR 3.11 before the issuance of the patent, and Patentees so state; and
- (D) A request for a certificate of correction under 37 CFR 1.323 accompanied by the fee (\$100.00) set forth in 37 CFR 1.20(a). The request for certificate of correction is concurrently submitted herewith, along with the required fee of \$100.00.

Under these circumstances, Patentees respectfully submit that the instant request is proper, and should be granted.

Respectfully submitted,

Shigeaki AOKI et al.
